F O R E W O R D

It gives immense satisfaction to present the booklet prepared by CSR department on CSR initiatives undertaken by our company Utility Powertech Limited (UPL) for the financial year 2015-16. It provides an overview and guiding principle of UPL in general and CSR initiative in particular.

We are endeavouring to contribute towards sustainable development including sanitation & public health, education, infrastructural development, skill development and welfare of society in the vicinity of our operating sites located across the country.

UPL under CSR activities is focusing on education, especially primary education and its infrastructural development. In this connection we have initiated "UPL Meritorious Student Award" in schools located in and around our various sites on annual basis. Further we have also provided water tank, water purifier, water filters etc. in various schools. Steps have also been taken in the area of promoting preventive health care.

Our other interventions have also made a positive impact on the people living in the vicinity of our operating sites. We are aiming to discharge our social responsibility with greater efficiency in the course of our operation.

This booklet is a humble effort to present our CSR initiatives for the financial year 2015-16.

With warm wishes,

(R.K.S. Gahlot)
Chief Executive Officer

1.2.1. PROMOTING EDUCATION

दादरी

UPL-CSR envisages **"Education"** as the biggest tool for transformation and our endeavour towards it is to make available needful help to ensure 100% attendance, especially in primary schools.

"Education for All" means ensuring that all children have access to basic education of good quality. It implies creating an environment in schools and in basic education programmes in which children are able to learn.

The development of children friendly learning environments is an essential part to increase access to and improve the quality of their schools.

UPL has initiated **"UPL MERITORIOUS STUDENT AWARD"** on annual basis for promoting education among children. This award is given to students who are studying in schools located in and around our operating sites.
